NRIG

Nursing Research Interest Group

CHAIR REPORT

To NRIG members,

I hope you all enjoyed your summer!

With the ongoing challenges facing our nursing workforce and health care teams, I along with many of you, am pleased to see the appointment of a provincial Chief Nurse of Professional Practice and Assistant Deputy Minister, Dr. Karima Velji, as well as a federal Chief Nursing Officer, Dr. Leigh Chapman. Their roles will be to represent nurses at the provincial and federal level, and to provide strategic advice from a nursing perspective to Health Canada as it faces calls to do more to stem the crisis. Having worked with both of these superstars in the past at the University of Toronto, I am excited by the thought of Drs. Velji and Chapman's new ideas that will center nurses.

I am thrilled to welcome New NRIG Executive Members who are featured in this issue of the NRIG Newsletter. I welcome you to read about the new executive members who are committed to serving you. We welcome: Dr. Amanda McIntyre as Chair-Elect, Hong Gu as Finance Executive Network Officer, Simon Donato-Woodger as Policy and Political Action Executive Network Officer, and Nicole Serre as the Social Media Executive Network Officer. For the first time, NRIG now has the most student representation since its inception with four student representatives: Kieran Blake (Nipissing University), Connor Kucharic (Trent University), Claire Stather, and Caitlin Cosgrove (Toronto Metropolitan University). The engagement of nursing students and nurse researchers is critical to build research capacity to move our health system forward. With this, NRIG will be increasing our promotional outreach, hosting a three-way university wide student competition, and hosting regular webinars and panels.

Finally, we are also thankful to the outgoing executives who were committed and passionate to the NRIG mission: Michelle Heyer, Yehudis Stokes, Kamika Sylvester, Marziah Moattari, Destiny Javier, and Rachel Ng. We wish you the best in your future endeavors.

Stay safe and all the best for this Fall.

Stay well.
Sincerely,

Charlene Chu, RN,
PhD

MEET THE EXECUTIVE TEAM

CHARLENE CHU

CHAIR

Dr. Charlene Chu is an Assistant Professor at the Lawrence S. Bloomberg Faculty of Nursing at the University of Toronto, and an Affiliate Scientist at KITE Toronto Rehab at the University Health Network. She is also cross-appointment (status only) with the Factor-Inwentash Faculty of Social Work's Institute for Life Course & Aging at the University of Toronto.

As a Registered Nurse with 16 years of experience working with older adults across the health spectrum, Dr. Chu's primary area of research is in designing technology-enabled interventions that support the mobility and daily function of older adults in post-acute care settings (e.g. long-term care, rehabilitation, community). The major focuses are: person-centred interventions; co-designing and evaluating innovative technology that is translatable into practice. She has over 60 publications, holds 2 patents, and has over \$1.8 million in funding from multiple Tri-Council Funding Agencies and other sources.

AMANDA MCINTYRE

CHAIR-ELECT

Dr. Amanda McIntyre is an Assistant Professor at Western University in the School of Nursing, and a Registered Nurse in the emergency department at London Health Sciences Centre. As a clinician-scientist, her long-term goal is to improve health care policy and practice via rigorous health systems and health service delivery research. Amanda has published extensively in the field of neurorehabilitation, currently holds three grants, and is the recipient of several local and national nursing awards.

Dr. Chu will be mentoring Dr. McIntyre for the next year to ensure a smooth transition for the Chair position.

MEET THE EXECUTIVE TEAM

HONG GU

FINANCE OFFICER

Hong Gu currently works as a Registered Nurse at UHN in Toronto and was an IEN before working in Toronto, Ontario. She completed a BScN and BFA in Visual Arts from York University. Hong has extensive clinical nursing experience, including intensive care nursing, nursing education, and is actively involved in nursing research. She is exploring how the visual arts can help to promote patient health and safety. Hong is excited to work for NRIG and looks forward to working with the team to meet the educational and research needs of its members.

TARA LUNDY

COMMUNICATIONS OFFICER- NEWSLETTER

Tara is a Registered Nurse and a graduate student working towards earning her MA in Applied Health Sciences in Nursing at Brock University. Her thesis work is focused on exploring the health and wellness of community-based workers who support women survivors of intimate partner violence. She has previously earned a BScN from Brock University and a BSc in Microbiology and Immunology from Dalhousie University. Tara currently works as a RN in the Sexual Assault Domestic Violence Centre in Niagara. She is also a Research Assistant for Dr. Joanne Crawford on a community-based project that explores social exclusion among immigrant women, and she enjoys being a Teaching Assistant for the Brock University Nursing Faculty.

MEET THE EXECUTIVE TEAM

LINDA SHEIBAN TAUCAR

**COMMUNICATIONS OFFICER-
WEBSITE**

Linda is a Registered Nurse who currently holds the position of the Associate Research Chair at the Canadian Institute for Seniors Care at Conestoga College in Kitchener, Ontario. Linda utilizes her joint clinical and research knowledge to coordinate and conduct research, primarily focused on evidence-based care in gerontology and gerontological curriculum development. Linda is involved in conducting several research projects related to resident-centred care in long-term care.

In 2018, Linda received a NRIG research grant to explore the experiences of college faculty on integrating RNAO Best Practice Guidelines in nursing and social service curricula. This opportunity allowed her to grow as a nurse researcher. Linda appreciates the opportunity to continue to participate in NRIG's initiatives by being on the Executive Board as the Communications Executive Network Officer-Website.

KYLIE TEGGART

**MEMBERSHIP AND
SERVICES
OFFICER**

Kylie Teggart is an oncology RN with a passion for integrating research evidence into front-line nursing practice. She began her MSc in the School of Nursing at McMaster University in 2019 and will transition into the PhD program this fall. Her thesis work is focused on exploring knowledge translation strategies to support oncology nurses in providing evidence-based cancer symptom management in outpatient settings. She also has an interest in home/community care and methods that engage patients and other stakeholders in research. Kylie has been an RNAO member since 2012 and is excited to join the NRIG Executive as the new Membership Officer.

MEET THE EXECUTIVE TEAM

SIMON DONATO- WOODGER

**POLICY AND POLITICAL
ACTION OFFICER**

I graduated from Toronto Metropolitan University's BScN in 2020, since then I have worked on a variety of General Medicine, COVID-19 Relief, and Critical Care units. I currently work at the Intensive Care Unit at Scarborough General Hospital. I am also a Research Assistant at the University of Toronto in the Chu Lab focused on the topics of gerontology and Artificial Intelligence. I also work in Community Health as an RN for the Parkdale Queen West Supervised Consumption Site.

KRISTINE NEWMAN

**MEMBERS-AT-LARGE
NRIG BOARD**

Dr. Kristine Newman obtained her Bachelor of Nursing Science (2003) and Master of Science in Nursing (2005) from Queen's University. Dr. Newman completed her PhD in Nursing Science (2012) from the University of Toronto and a Knowledge Translation Canada: Strategic Training Initiative in Health Research Post-Doctoral Fellowship (2013) at McMaster University. Dr. Newman's program of research relates to Knowledge translation – health evidence; Gerotechnology; Dementia awareness and intergenerational relations, Young Caregivers & their Families, and Formal & Informal Caregivers. She is a founding member of the World Young Leaders of Dementia (WYLD). She has built a research program surrounding her expertise in rehabilitation gerontological nursing practice and knowledge translation. Her knowledge dissemination involves an arts-based approach that makes research accessible and impactful to various audiences. Such projects include: Spare a Thought for Dementia (T4D) campaign, <http://thoughtsfordementia.com/> and Embody – Experiencing Dementia through New Media, <https://toronto.ctvnews.ca/mobile/video?clipId=1520005> link.

MEET THE EXECUTIVE TEAM

NICOLE SERRE

**MEMBER-AT-LARGE
NRIG SOCIAL MEDIA**

Nicole Serre is a Registered Nurse at Royal Victoria Regional Health Centre and a faculty member in the Health, Wellness and Sciences Department at Georgian College. Nicole completed her Master of Nursing degree from Toronto Metropolitan University and her thesis focused on nurses' experiences with patient safety incidents in long-term care homes. Nicole hopes to continue to expand on her research findings to enhance gerontological care in nursing homes. Within this role, Nicole hopes to draw in the interest of nursing students, staff nurses, and future researchers to NRIG.

STUDENT REPRESENTATIVES

KIERAN BLAKE

I am a third year BScN student at Nipissing University and became interested in nursing research when I realized the widespread benefits it offered. I am currently an international student peer mentor and tutor at my university and I am elated for the opportunity to expand my passion for research in the NRIG student representative position.

CAITLIN COSGROVE

Caitlin Cosgrove is a fourth-year nursing student in the BScN program at the Toronto Metropolitan University (TMU). She has been involved in over 15 research projects as both a Research Assistant and Student Advisory Member at the TMU and Centennial College. Her research experiences include co-authoring nursing open educational resources, building Virtual Gaming Simulations, performing qualitative research, and presenting research at conferences.

STUDENT REPRESENTATIVES

CLAIRE STATHER

I am a fourth-year nursing student at Toronto Metropolitan University. My various experiences in research focused roles has inspired a passion for utilizing research-based evidence in my practice as a nursing student and furthering the discipline of nursing through the dissemination of research findings. I hold the role of Executive Coordinator for the Collaborative Nursing Big Buddies Program, where I plan and facilitate engaging activities and events for students. I hope to pursue a career in the field of public health or nursing informatics, while continuing to actively engage in nursing research!

CONNOR KUCHARIC

Connor Kucharic is a 4th year accelerated nursing student at Trent University. He is also currently completing an MSc in Global Health Policy at the London School of Hygiene and Tropical Medicine in London, UK. He is presently placed in a General Internal Medicine Unit at St. Michaels Hospital in Toronto, Canada. Connor will be completing his consolidating placement with Niagara Health System in an Intensive Care Unit. In addition to clinical, Connor is currently working on a thesis looking at nursing retention and career trajectories of ICU nurses with his Supervisor, Dr. Kirsten Woodend at the Trent/Fleming School of Nursing. Connor is also a member of the Canadian Association for Global Health, where he has recently published an article on COVID-19 face mask policies in G7 nations, and continues to peer mentor students.

NRIG would like to thank the following outgoing executive members for all their hard work and commitment to the team! We wish you all the best in your future endeavors!

**Michelle
Heyer**

Dr. Marzieh Moattari

**Kamika
Sylvester**

**Yehudis
Stokes**

Destiny Javier

**Rachel
Ng**

**THANK
YOU**

NRIG ANNUAL GENERAL MEETING

We hosted our AGM on August 24, 2022 at 1100-1200 EST online through Zoom. We provided annual reports from the NRIG executive officers, welcomed our incoming executive board members, thanked our outgoing executives, and congratulated the annual recipients of the NRIG awards, grants and scholarships. The NRIG Executive is gearing up for many exciting opportunities and events for our members this coming year. Stay tuned!

If you missed the AGM, here is a PDF link to the AGM Presentation!

https://drive.google.com/file/d/1x6m5QdOORFUp1F5_ETIU4M06oFuZR2uL/view?usp=sharing

We would love to hear from you!

NRIG is here to support your research needs! Reach out and let us know how we can support you in either learning more about research or helping you share your findings with our community. If there is content you want us to start developing, please let us know. Email us: nrig.chair@gmail.com

Interested in presenting/sharing your work to the members of NRIG? Please fill out your information in the link below and an NRIG representative will confirm the details with you via email.

<https://forms.gle/EPBdRF6UzhzHQmM77>

Visit our website (nrig.ca), and follow our Instagram, (@[rnao.nrig](https://www.instagram.com/rnao.nrig)), Facebook ([facebook.com/RNAO.NRIG/](https://www.facebook.com/RNAO.NRIG/)), and Twitter (@[RNAOnrig](https://twitter.com/RNAOnrig)) to stay updated on our upcoming events and opportunities!

HOT OFF THE PRESS!

New to the NRIG Newsletter is *Hot off the Press!* *Hot off the Press* features recent nurse-related research that open and accessible to the public. If you have an open access publication you'd like share, please send the citation to nrig.newsletter@gmail.com.

Read an editorial in the Toronto Star by NRIG's Chair, Dr. Charlene Chu:

"Irreparable harm was incurred by visitation bans in long-term-care homes and must never be repeated"

Interested in having your recent nurse-related research featured in NRIG's *Hot off the Press*? Email nrig.newsletter@gmail.com to share your research!
*Link/citation must be accessible to the public.

NRIG SPOTLIGHT

Dr. Amy Wright is an Assistant Professor in the Lawrence S. Bloomberg Faculty of Nursing at the University of Toronto. In collaboration with a group of Indigenous mothers in the Hamilton, Ontario area, she created an exciting initiative, *Healing the Hurt*. *Healing the Hurt* is a website featuring a short video series in which Indigenous mothers and service providers share their experiences of seeking health care for themselves and their infants. The website is directed at health providers in Canada, with the hopes that they will watch the videos and read the information to supplement their own learning about cultural safe health care.

The Truth and Reconciliation Commission calls for all health providers (students and those currently practicing) to be educated about the history of Indigenous Peoples and the impact of colonization both past and present. This resource is an important way to support this Call to Action, and can help to improve experiences for Indigenous communities.

The website can be reached by going to: www.indigenoumomandbaby.org
Additional videos and information are being updated regularly on our social media sites:

Instagram: <https://www.instagram.com/indigenoumomandbaby/>

Twitter: <https://twitter.com/IndigenousMandB>

RNAO INTEREST GROUP OF THE YEAR

Congratulations to NRIG for achieving RNAO's Interest Group of the Year Award!

See the full announcement on the RNAO website at:
<https://rnao.ca/about/awards/recognition-awards#2022winners>

NRIG STUDENT CORNER

NURSING WEEK UPDATE

DESTINY JAVIER

RACHEL NG

Nursing Week was celebrated with a NRIG Clinical Research Virtual Info-Session. Nursing students joined us in exploring the involvement of nursing researchers in clinical research.

Our wonderful speakers included Toronto Metropolitan University alumni Shahir Haradwala and his experience as a Pediatric RA. Michelle Esterelis (RN) expanded on clinical research in pain management, while Katie Jalili (RN) shed light on the role of a Clinical Nurse Coordinator with the Canadian COVID-19 Prospective Cohort Study (CANCOV). Rachel ended the session with an insightful patient perspective on clinical drug trials.

NRIG 2022 AWARD RECIPIENTS

NRIG is pleased to continue to be able to support the ongoing research and scholarship of NRIG members. We are very proud to announce the 2022 NRIG Award, Scholarship and Grant recipients:

NRIG Novice Researcher Grant Valued at \$3000

Dr. Connie Schumacher

Dr. Schumacher is an Assistant Professor in Nursing at Brock University. Connie has over 25 years of clinical experience in critical care and community care. She is this year's AMS Fellow in Compassion and Artificial Intelligence. Research interests include senior's care, chronic disease management, interRAI applications, and promoting evidence-based care in the home care sector. Her project involves a mixed methods study evaluating deployment of a new interRAI instrument for care coordination during the COVID-19 pandemic. She seeks to understand the unique contexts of conducting comprehensive virtual and telephone assessments with home care patients.

NRIG Innovation and Dissemination Research Grant Valued at \$1500

Simon Donato-Woodger

I completed the Toronto Metropolitan University's Bachelor of Science in Nursing program in April of 2020. Since then, I've worked in a variety of settings, including a COVID-Overflow unit and a General Medicine unit in Kitchener, and a remote hospital in the Northwest Territories. Since May of 2021 I've been a nurse at Scarborough General Hospital's Intensive Care Unit, where I formed the idea for this project after encountering common requests for information among patients and families.

NRIG Scholarship Valued at \$1000 x

Laura Pozzobon

Laura Pozzobon is a PhD (Health Quality) student at Queen's University.

Laura's primary research interests are in the rigorous analysis of preventable patient harm incidents to identify system level opportunities for improvement; identifying strategies to minimize patient harm reoccurrence; and understanding how organizations learn and recover from patient safety threats. While working towards her PhD, Laura continues in her roles as a Quality Improvement and Patient Safety Specialist and High Reliability Organization Lead at University Health Network. Laura also contributes to research at Cardiff University as an Honorary Visiting Research Fellow and member of the Welsh Ergonomics and Safer Patients Alliance.

Carmela Redhead

I graduated from Western with a BScN degree in 2013. For my first nursing job I worked in complex care in Timmins and District Hospital. In 2014 I returned to London and started working in the Epilepsy Monitoring Unit (EMU). While working in the EMU I identified several gaps in the processes used to orient new nurses. I worked with my mentor and manager to rectify these gaps. In 2019 I decided to enroll in the MScN programme at Western University to pursue more formal training in nursing education and nursing research. I am in firm believer in the cyclical relationship between research and education, so being strong on both fronts is very important to me.

CONGRATULATIONS

NRIG 2022 AWARD RECIPIENTS

NRIG Scholarship Valued at \$1000 x 4 (Continued)

Shazelle Lindsay

Shazelle Lindsay is a Full-Time PhD in Nursing Student at McMaster University and Clinical Research Assistant on the EMBOLDEN Research Program which has a goal of improved physical and community mobility for older adults. Shazelle's research interests include promoting optimal aging, improving the quality of health care delivery to older adults living in the community, and gerontological research. Shazelle's current research explores the lived experience of community-dwelling older adults living with social isolation and the effects and outcomes due to these issues. The overall aim of her research is to understand the complexities that these older adults encounter and identify community-based interventions to improve the quality of life for older adults living with social isolation.

Jessica Pimienta

Jessica Pimienta is a PhD student with the Lawrence S. Bloomberg Faculty of Nursing at the University of Toronto. Her clinical experience has been primarily in obstetrics and public health. Jessica completed the Master of Nursing program at Ryerson University, specializing in the field of Leadership in Healthcare Policy and Education. Her master's thesis work focused on newcomer women's experiences with perinatal care during the three-month health insurance waiting period in Ontario. Jessica's doctoral work will be looking at the relationships between social media influencers and the pharmaceutical industry, and the ways that these interactions are regulated in the context of a country that bans direct-to-consumer advertising of prescription medicines.

Undergraduate Award Valued at \$250 x 4

Amanda Marcinowska

Amanda Marcinowska is entering her final year of the Bachelor of Science in Nursing program at the Lawrence S. Bloomberg Faculty of Nursing, University of Toronto. She holds a Master of Science in Family Medicine from McGill University.

She is currently exploring the overall effect of obesity interventions among the paediatric population in Canada and comparing the effectiveness of different types of treatments. Her research interests include primary health care, mental health, and obesity.

Ahmad Algouthani

My name is Ahmad Algouthani, and I am a second-year student in the nursing program offered by Laurentian University located at the Sault College campus. I carry years of volunteer experience as a teacher for children and as an advocate for caring practices for those who were affected and injured during the Syrian civil war. I too used to live in one of the world's biggest refugee camps in 2013 due to war in my hometown. Currently, I serve the students as a director on the board of directors with the students' union at Sault College, as a residence advisor, and starting in September as a student representative on the board of governors. My professional interest is to become a surgical nurse and develop nursing research to advance nursing practices in emergency situations.

Chelsea Masterman

My name is Chelsea Masterman, I am just finishing the Compressed Time Frame BScN program at Western University, and I am starting my MScN in the fall. I have a passion for working with vulnerable populations and bringing healthcare services to underserved communities in Canada. Outside nursing and academia, you can find me swimming, camping, or cuddled up with my cat Gingersnap!

CONGRATULATIONS

NRIG 2022 AWARD RECIPIENTS

Undergraduate Award

Valued at \$250 x 4

Caitlin Cosgrove

Caitlin Cosgrove is a fourth-year nursing student at the Toronto Metropolitan University (TMU) and Centennial College and has been actively involved in a variety of research projects. She is the Mental Health Advocacy Representative for the TMU Canadian Nursing Students' Association and is a Youth Network Ambassador at Anxiety Canada. Recently she presented at her first peer-reviewed conference. Caitlin was joined by her team members, Dr. Nadia Prendergast, Sana Mohammed, and Tahja Ffrench to share their research presentation titled, Digital Storytelling: Transforming the classroom culture for Millennials and Generation Z.

New NRIG Member Award

Ashley Ahuja

Ashley Ahuja is completing the combined Master of Nursing and Nurse Practitioner program at the University of Toronto with a collaborative specializing in Aging and the Life Course. She is passionate about the care of older adults in the healthcare system. Ashley looks forward to combining her Nurse Practitioner clinical knowledge and research on older adults to drive policy and practice change to improve patient care.

New NRIG Member Award

Valued at \$500 x 4

Dr. Kateryna Metersky

Dr. Kateryna Metersky is an Assistant Professor at the Daphne Cockwell School of Nursing at Toronto Metropolitan University. She is also a practicing nurse in General Internal Medicine at Toronto Western Hospital - University Health Network. Dr. Metersky obtained her PhD from the University of Western Ontario in 2020. Dr. Metersky has taught at 5 academic institutions at both the undergraduate and graduate levels. She also has extensive experience with nursing and interprofessional education in the hospital setting.

Erica Plante

Erica is currently completing a Master's of Science in Nursing at McMaster University. Since graduating from her undergraduate degree in Nursing at the University of Ottawa in 2014, she has focused her practice as a Registered Nurse in emergency medicine. Her thesis project focuses on New Graduate Nurses' transition experience to professional practice in the Emergency Department setting. As a graduate student, Erica co-chairs the Peer Mentoring Initiative for incoming students and endeavors to use this experience to spearhead a similar program for New Graduate Nurses in the hospital setting.

Rozina Somani

Rozina is associated with the nursing profession for 25 years. Over the course of her career, she has valued the professional growth and learning from a highly diverse set of involvements, both in professional and volunteer capacities. Currently, she is doing PhD in Nursing from the University of Toronto (UofT) with a Collaborative Specialization in Global Health (CSGH). Her field of study is "Critical perspectives in health and healthcare" and her PhD research focuses on "Violence in the healthcare sectors". Her PhD study aims to provide a workable, researched-based, implementable workplace violence (WPV) reporting system.

CONGRATULATIONS

NRIG

Nursing Research Interest Group

UPCOMING OPPORTUNITIES

The NCSBN Center for Regulatory Excellence Grant funds projects that advance the science of nursing policy and regulation and build regulatory expertise worldwide. Submission deadline September 30, 2022. Funds available: Up to US\$300,000.

The Banting and Best Diabetes Centre Drucker Family Innovation Fund Grants 2023/2024 have an application deadline of September 20, 2022. Funds available: up to \$50,000. New this year, the application deadline for the Diabetes Team of the Year Award is October 18, 2022. Applicants should check eligibility carefully.

The Foundation for Women's Cancer (US) is offering several grants. The FWC M4H Research Grant (all gynecologic cancers) and the Grant in Memory of Peggy A. Yates (all gynecologic cancers except ovarian cancer). Funds available: US\$50,000. Diversity and Health Equity Research Grants: Value \$75,000 (two grants). The Amy Krouse Rosenthal Foundation Early Detection Research Grant offers \$75,000 over two years (\$150,000 total). Ovarian Cancer: The National Ovarian Cancer Coalition Early Detection Research Grant offers US \$50,000 over one year. The National Ovarian Cancer Coalition Quality of Life Research Grant offers US\$50,000 over one year. The AstraZeneca Young Investigator Stimulus Research Grant for Ovarian Cancer Research offers US\$50,000

SSHRC and WAGE Gender-based Violence Research Initiative supports academic researchers partnering with other research-focused and community-based organizations to advance knowledge on and analyse the causes and persistence of GBV in Canada. Value: Up to \$700,000 over four years. Application deadline: anytime until October 6, 2022. MRA deadline is noon, September 22, 2022.

SSHRC's Partnership Development Grant is now open for applications. Submission deadline is November 15, 2022. Funds available: \$75,000 to \$200,000 for one to three years. Funds can support knowledge mobilization as well as test new partnership approaches for research.

The Debra Spunt Research Grant from the International Nursing Association for Clinical Simulation and Learning application deadline is October 9, 2022. The competition is open to INACSL members only.

NRIG

NRIG

Nursing Research Interest Group

UPCOMING OPPORTUNITIES

AMERICAN
ASSOCIATION
of CRITICAL-CARE
NURSES

The American Association of Critical-Care Nurses offers two grants: the AACN Impact Research Grant, which awards three grants of up to US\$50,000 each; and the AACN Sigma Theta Tau Critical Care Grant, which awards one grant of up to US\$10,000. PhD students – if planning to apply for the STTI grant, please make sure your supervisor is listed as a co-PI and reach out to the research office for more information (research.nursing@utoronto.ca). The application for both opens on Monday August 29, 2022, with full application due Friday October 28, 2022.

AANA
American Association of
NURSE ANESTHESIOLOGY
CRNA focused. CRNA inspired.

The American Association of Nurse Anesthesiology General and Dedicated Research Grant Application Fall Deadline is November 1, 2022.

ResMed Foundation (Supporting sleep and respiratory health through research and education) clinical research proposal application deadline is September 15, 2022.

BREATHE
the lung association

The Canadian Lung Association grant competition registration deadlines are September 9, 2022, with full applications due October 7, 2022. Funds available: Allied Health Research Grant: awardee must secure at least 50% of the budget as matching funds (to a maximum of \$10,000). Allied Health Research Fellowship Award (masters or doctoral students): annual stipend is based on a 50:50 match between the lung association and the trainee's supervisor; for full-time students, the Canadian Lung Association will contribute a maximum of \$5,000. Research Fellowship and Studentships (MD and PhD students): Matching funding is required.

SSHRC Insight Grant application deadline is October 1, 2022. SSHRC has also developed guidelines for effective knowledge mobilization, which may be helpful for the Insight grant.

The R. Howard Webster Foundation (Canada) offers funding in the broad areas of Arts & Culture, Education, Environment, Medical, and Social Services. There are no specific deadlines, and once submitted, review and decision process may take up to 6 months.
